

WETSUIT POLICY

The Marble Falls Triathlon is a USA Triathlon-sanctioned event and will follow USA Triathlon Competitive Rules regarding wetsuit use.

For age-group athletes:

- **Water temperature 60.6°F or below:** Wetsuits are **required**.
- **Water temperature above 60.6°F and through 83°F:** Wetsuits are **permitted**. Wetsuits may not exceed **5 mm** in thickness.
- **Water temperature above 78°F but below 84°F:** Athletes may wear a wetsuit, but athletes wearing wetsuits are **not eligible for age-group awards**.
- **Water temperature 84°F or higher:** Wetsuits are **not permitted**.

The water temperature will be measured by race officials prior to the start of the swim, and the official race-day water temperature will determine whether wetsuits are permitted, required, or prohibited.

Athletes are responsible for understanding the wetsuit policy and its effect on age-group award eligibility. Please check race-day announcements for the official water temperature and any changes to the wetsuit policy.
